
Custom steel crawler undercarriage

Heavy-duty steel track base, built to order

The custom steel crawler undercarriage is built for rigs and heavy machinery working in hard, sharp and high-load conditions. A range of steel track and chassis structures is available, each fitted with a gearbox or hydraulic motor to the customer's specification.

Specifications

STRUCTURE	
Track type	**Steel, multiple specifications**
Chassis structure	**Multiple options for heavy loads**
Conditions	**Hard, sharp, heavy-duty**

CUSTOM OPTIONS	
Drive	**Gearbox or hydraulic motor**
Build	**Made to customer dimensions**

Key features

- **High load strength.** Steel tracks carry heavy machinery in severe conditions.
- **Wear-resistant.** Stands up to sharp rock and abrasive ground.
- **Built to order.** Sized and configured to the host machine.
